User Stories for Sprint 3

Title: Admin User Profile and Platform Management (US05)	**Priority:** High	**Story points:** 5

User story

As an admin,

I want to manage user profiles, job postings, and monitor platform activity,

so that I can ensure the system's integrity, security, and provide support when needed,

Constraints

- **Support Clarity:** The admin dashboard should have clear navigation and user interface to perform various management tasks.

- **Support Validatability:** The system should provide feedback and confirmation when performing admin actions, such as profile updates, job post moderation, and user account management.

Acceptance criteria

Given that I am logged in as an admin,

When I access the admin dashboard,

Then I should be able to perform the following tasks:

1. Manage User Profiles.
2. Manage Job Postings
3. Track and Monitor Platform Activity ☐
4. Provide Support and Assistance

Title: Tracking applications by candidates(US06)	**Priority:** Medium	**Story points:** 2

User story

As an user,

I want to track the applications I made,

so that I can review the applications processed and cancel them or wait for them.

Constraints

- **Support Clarity:** The application should have a tracking bar or as in something as it's reviewed, accepted.

- **Support Validatability:** After that, the user should be able to make a decision according to his or her's choice.

Acceptance criteria

Given that I am logged in as an user,

Then I should be able to view the status of my application.
